## AND I WILL WORK TOWARDS...

### • Equal access to hardship funds for all students

International students don't get access to hardship funds and bursaries, I want to lobby the University to provide all students with an equal opportunity to access these funds.

### • Better incentives for all UWLSU course reps

Having been a Course Rep myself, I believe they deserve more appreciation and incentives. I want to work alongside the SU to bring this to life.

### • Continue my work on Sexual Violence Prevention

Do you like having chargers at SU parties? having access to welfare officers? I was the student voice for those ideas and would love to continue my work towards these initiatives.

### • Make the classrooms and Facilities better

From broken desks to state of the labs, from dirty classrooms to more hours to access specialized facilities, there is so much to be done, and I want these concerns to be actioned..

### • Taking networking beyond UWL

Networking is essential, I want to organise events inviting students from other universities creating a larger pool of students to collaborate and network with!
